INAUGURATION

Hardware Expo Africa 2025 International Exhibition and Conference on Wood Industry was organized during **25th to 27th November 2025 at Kenyatta International Convention Centre (KICC), Nairobi, Kenya**. This was the **Maiden Edition** which was successfully concluded on 27th November 2025. Radeecal Communications organized this exhibition. It was supported by **Ministry of Investments(Trade and Industry), Kenya forest Service (KFS), KABCEC (The Kenya Association of Building and Civil Engineering Contractors), Kenya Forestry Research Institute (KEFRI), AAK-The Architectural Association of Kenya & Kenya Green Building Society**

The Exhibition was inaugurated by **Dr. Deborah Barasa** - The Cabinet Secretary for Environment, Climate Change and Forestry, Republic of Kenya ; **Mr. Sanyal Desai** - CEO, Radeecal Communications, & **Mr. Neeraj Shah**, CFO, Radeecal Communications.

Hardware Africa 2025 has witnessed around **4,000+ Visitors** from entire Africa and Abroad. This dynamic event was focused on Hardware Industry & Wood Industry.

HARDWARE EXPO AFRICA CONFERENCE

THEME : PROMOTING EFFICIENCY IN WOOD UTILIZATION THROUGH ADVANCING TECHNOLOGY, RESEARCH AND COLLABORATIVE PARTNERSHIPS

As Africa's construction, furniture, packaging, and infrastructure sectors continue to expand, the demand for sustainable and efficient wood utilization has never been more critical. The Hardware Expo Africa Conference serves as a strategic platform to address this challenge by bringing together policymakers, manufacturers, researchers, technology providers, and industry leaders.

This conference will focus on how advanced machinery, digital processing systems, material innovation, and applied research can significantly reduce waste, improve yield, and enhance the value derived from every unit of timber.

Emphasis will be placed on modern saw milling technologies, precision cutting, engineered wood products, automation, and data-driven production planning.

Equally important is the role of collaborative partnerships linking academia, industry, government bodies, and international stakeholders to accelerate knowledge transfer, investment, and capacity building across the wood value chain.

Through expert-led sessions, case studies, and technology showcases, the conference aims to:

- Promote resource efficiency and sustainable forestry practices
- Encourage technology adoption and innovation in wood processing
- Strengthen research-driven solutions for industry challenges
- Foster regional and global partnerships for long-term sector growth

KEY HIGHLIGHTS

SPEAKERS AND PANELIST

We extend our heartfelt appreciation to all the esteemed speakers and panellists who enriched the conference with their knowledge and expertise. Their contributions fostered meaningful discussions and inspired new ideas for driving progress in the Hardware & Wood working sector.

Kenya pays heavy price for Putin decree to recruit foreign fighters

The Russian leader signed a decree allowing foreigners to serve during mobilisation. What the decree did not specify was how the foreigners would be recruited.

MAHMOUD MUHAMMAD, CEO CHIEF GROUP

Kenya has been recruited in the past after being promised such a large number of jobs. The Russian leader signed a decree allowing foreigners to serve during mobilisation. What the decree did not specify was how the foreigners would be recruited.
